Dentistry with Heart

We had our 8th annual Dentistry with a Heart event on March 8th. Thank you to our staff and all of the volunteers who made this year's Dentistry with a Heart a huge success! We helped 117 patients and donated \$42,926.00 worth of free dental treatment!

Dr. David Stevens joined us in 2006, and is now the managing partner at Riverside Dental Care.

Dr. Ott, then..... and now!

Dr. Wade Stevens joined us in 2009, and is now a full partner.

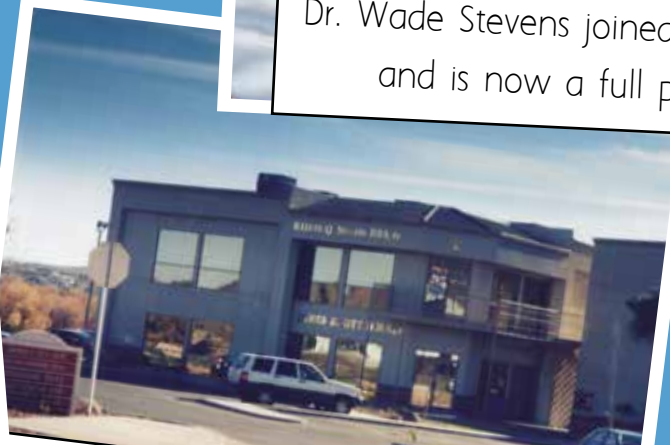

Our landlord said we would be able to stay open during their remodel. Oh my goodness- noise that made the walls shake, dust, and obstacles by the door. The miracle is that you came anyway. We are still grateful about 1996.

An early staff picture, taken about 1995. Rebecca is behind Dr. Ott, to the right. - She has been with us since almost the beginning, and is now our office manager

This is where we began! St. George Blvd., next to ERA Realty. We were here from 1993-1998.

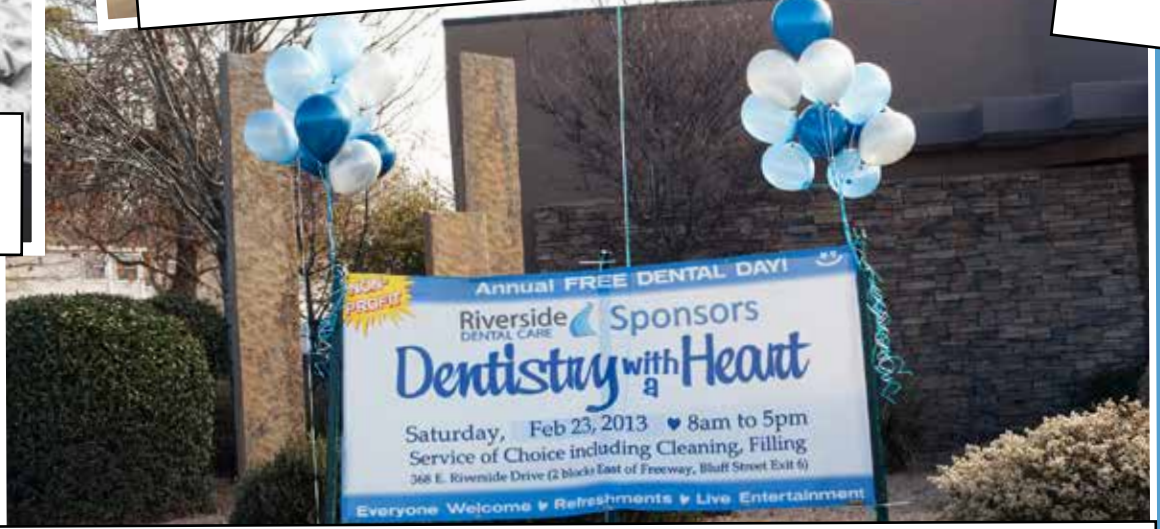

Our "new" office at 352 E Riverside. We moved here in 1998 and were never going to move again...

...Until 2005, when we doubled our space by moving to our current location! This picture was taken right after the move and includes Rebecca, Khara, Pam and Shari, who are still with us today.

This was the sign on our front door during our landlord's 1996 remodel. Who knew that going to the dentist could be so dangerous?

Our first "Dentistry with a Heart" was in 2007 and has been a wonderful way to give back to our community. We have been able to change lives through this annual event and, in doing so, we have enriched our own.

Terri, Rebecca, and Susan, part of our front office team. Dentistry with a Heart, 2012
